About Conference

Environmental science is based on the impact of human actions on terrestrial and aquatic ecosystems and develops ideas and plans for restoring these ecosystems. Environmental scientists also help planners develop and construct buildings and other modules to help benefit water resources and efficient land usage. Environmental research is commonly conducted among interdisciplinary sciences to produce one goal. Since most environmental issues deal with human activities, the study of economics, law, and social sciences is often used in conjunction with environmental science.
Environmental science deals with a wide range of issues including climate change, conservation, biodiversity, water quality, soil and groundwater contamination, natural resources, waste management, development, disaster reduction, and various pollutions.

The main agenda of this conference is to bring together renowned researchers, scientists, and scholars to exchange ideas, present sophisticated research works discuss topics in the field, and share their experiences on all aspects of Environmental Science and Applications.

A wide-ranging scientific program consisting of plenary lectures, keynote lectures, Invited lectures, parallel sessions, and poster sessions for young scientists covering all topics in environmental science and applications will be scheduled. This conference provides a wonderful opportunity for you to enhance your knowledge about the newest interdisciplinary approaches in Environmental Science and Applications.

Moreover, the conference offers a valuable platform to create new contacts in the field of Environmental Science and Applications, by providing valuable networking time for you to meet great personnel in the field.

We are excited to see you at ENVIRONFORUM2024 in Munich, Germany.

Sessions

• Environmental Protection	• Solar Energy and Wind Energy
• Civil and Environmental Engineering	• Environmental Research and Public Health
• Greenhouse Effect and Global Warming	• Anthropogenic Impacts on Atmosphere, Soil, or Water
• Oceanography and Marine Sciences	• Environmental data science
• Environmental Sustainability	• Solar Energy Conversion and Photovoltaics
• Organic and Inorganic Pollutants	• Ocean Acidification
• Waste Management and Treatment	• Ecosystem Rehabilitation
• Climate Change	• Human Impact on Environment
• Agriculture and Food Safety	• Deforestation
• Pollution and Health Issues	• Bioenergy and Biofuels
• Renewable and Non-Renewable Energies	• Environmental Epidemiology
• Biotechnology	• Ecosystem Rehabilitation
• Ecosystems and Ecology	• Plant Science
• Green House Gases	• Environmental Microbiology and Biology

Plenary Speakers

Poul Erik
Hansen Roskilde University,
Denmark

Hongchen Jiang
China University of Geosciences,
China

Yaqian Zhao
Xi'an University of Technology,
China

Hai Guo
Hong Kong Polytechnic University,
Hong Kong

Bing Chen
Memorial University,
Canada

Keynote Speakers

David Galan-Madruga,
National Centre for Environmental Health
Carlos III Health Institute, Spain

Kinga Stuper-Szablewska,
Poznan University of Technology,
Poland

Shenbin Cao
Beijing University of Technology,
China

Hosam Saleh
Egyptian Atomic Energy Authority,
Egypt

Organizing Committee members

- **David Galan-Madruga,** National Centre for Environmental Health Carlos III Health Institute, Spain
- **Miren Lopez de Alda,** Institute of Environmental Assessment and Water Research, Spain
- **Shuo Wang,** Hong Kong Polytechnic University, Hong Kong
- **Ana Monteiro,** Porto University, Portugal
- **Yuming Chen,** Fujian Normal University, China
- **Hai Guo,** Hong Kong Polytechnic University, China
- **Shenbin Cao,** Beijing University of Technology, China
- **Hongchen Jiang,** China University of Geosciences, China
- **Yaqian Zhao,** Xi' an University of Technology, China
- **Kinga Stuper-Szablewska,** Poznan University of Technology, Poland
- **Tommaso Caloiero,** National Research Council of Italy -Institute for Agricultural and Forest Systems in the Mediterranean, Italy
- **Giuseppe Pulighe,** CREA - Research Center for Agricultural Policies and Bio-economy, Italy
- **Daniela Pantusa,** eCampus University, Italy
- **Luigi Vesce,** University of Rome, Italy
- **Vittoria Guglielmi,** University of Milan, Italy
- **Bing Chen,** Memorial University, Canada
- **Gordon Huang,** University of Regina, Canada
- **Jaan H Pu,** University of Bradford, UK
- **Poul Erik Hansen,** Roskilde University, Denmark
- **Hedi Daghari,** Tunisian National Institute of Agronomy, Tunisia
- **Ourania Tzoraki,** University of the Aeean, Greece

Venue:
Munich, Germany

Munich is the capital and most populous city of the Free State of Bavaria. It is the third-largest city in Germany, after Berlin and Hamburg, and thus the largest which does not constitute its own state, as well as the 11th-largest city in the European Union. The city's metropolitan region is home to about six million people and the third biggest Metropolitan Region by GDP in the European Union.

Whether you're visiting for a long weekend or planning to make Munich your new home, there's plenty to see and do in Germany's third-biggest city. This green city is known for its beautiful parks, many museums, and beautiful palaces. To make the most of your trip, we've put together a list of attractions you can't leave Munich without seeing, from the best museums to stunning city views.

Some of the Tourist Attractions in Munich are:
Marienplatz, Nymphenburg Palace, English Garden, Munich Residenz, Hofbrauhaus Munchen, New Town HallFrauenkirche, Olympiapark, Deutsches Museum, BMW Museum.

Important Dates

Abstract Submission Deadline	January 31, 2024
Earlybird Registration	November 19, 2023
Standard Registration	January 26, 2024
On-spot Registration	April 11, 2024
