

IMMUNOFORUM2023

International Forum on Immunology and Microbiology

August 21, 2023 | Webinar

Virtual Presentations/Webinar

Day 1 - August 21, 2023

London Time Zone (GMT+1)

9:00 - 9:25	I	Title: Impact of Invasive Pathobionts and Microbiota Dysbiosis on Intestinal Innate Immunity and Cancer Progression Linda Chia Hui Yu, National Taiwan University College of Medicine, Taiwan
9:25 - 09:50	I	Title: Elucidating Osteoclast-Breast Tumor Hybrids Cell Fusion Mechanisms for Bone Metastatic Disease Progression Chow Kwan, City University of Hong Kong, Hong Kong
9:50 - 10:15	I	Title: Elucidating the Multifaceted Roles of Intracellular Contractility for NK Anti-Cancer Cytotoxicity Darren Wong Chen Pei, National University of Singapore, Singapore
10:15 - 10:40	I	Title: Skin Damage Induced by Trichophyton Hedgehogs Xiang Zhang, Wannan Medical College, China
10:40 - 11:05	I	Title: Helicobacter Pylori Genome and Metabolome Reprogramming Roles in the Development of Antimicrobial Resistance Anis Rageh Mohammed Al Maleki, Universiti Malaya, Malaysia
11:05 - 11:30	I	Title: NK Cell and its Implication in HSCT Selma Zenia D Silva, Tata Memorial Centre, India
11:30 - 12:10	P	Title: Experimental Gonorrhoea Vaccine Skin Patch Susu Zughaier, Qatar University, Qatar
12:10 - 12:35	I	Title: TLRs Expression in Canine Mammary Gland Neoplasms: A Pathological and Molecular Study Elnaz Elahirad, University of Tehran, Iran
12:35 - 13:00	I	Title: The Role of Interferon-Gamma and its Receptors in Gastrointestinal Cancers Zahra Mozooni, Iran University of Medical Sciences, Iran
13:00 - 13:25	I	Title: Investigation of CaMV-Host Co-Evolution Through Codon Adaptation Index (CAI) Mahin Pouresmaeil, Azarbaijan Shahid Madani University, Iran
13:25 - 13:50	I	Title: Antibiotic Resistance: Are Metal Nanoparticles Suitable for Replacing Antibiotics? Amir Jalali, Arak University, Iran
13:50 - 14:15	I	Title: Diagnostic Stewardship in Tuberculosis Ajay Kumar Jagdish Prasad Gautam, King Fahad Super speciality Hospital, Saudia Arabia
14:15 - 14:40	I	Title: Molecular Microbial techiques in Extremophiles: Insight of Acidophiles Belma Nural Yaman, Eskisehir Osmangazi University, Turkey
14:40 - 15:10	K	Title: Sphingolipid Metabolism Regulates T-cell Responses in Cellular Immunotherapy Xue Zhong Yu, Medical College of Wisconsin, USA

15:10 - 15:30	Poster	Title: Kinetic Interaction between <i>L.amazonensis</i> Promastigotes and Leucocytes in Blood from Mice Deficient in Complement Component C3 or Competent Mice
		Mercedes Dominguez, The Carlos III Health Institute, Spain
15:30 - 15:50	Poster	Title: Advanced Implant Surfaces: Harnessing Bioglasses and Ciprofloxacin for Enhanced Bone Repair and Antimicrobial Protection
		Irina Negut, National Institute for Lasers, Plasma and Radiation Physics Romania, Romania
15:50 - 16:15	I	Title: The Quality of Antimicrobial Susceptibility Test Discs and Implications for Patient Outcomes
		Stefan T Orszulik, University of London, UK
16:15 - 16:40	I	Title: Immunogenicity and Safety Profiling for Multi-Epitope Peptide Based-Vaccination Against SARS-CoV2 Infection
		Hassan Elsayed, National Research Centre, Egypt
16:40 - 17:05	I	Title: Effective Vaccines with Protective Efficacy Against SARS-CoV-2 Variants
		Lanying Du, Georgia State University, USA
17:05 - 17:30	I	Title: The EMT Program and the Tumor Immuno-Microenvironment
		Guojun Wu, Wayne State University, USA
17:30 - 17:55	I	Title: Association between Biological Immunotherapy for Psoriasis and Time to Incident Inflammatory Arthritis: A Retrospective Cohort Study
		Shikha Singla, Medical College of Wisconsin, USA
17:55 - 18:20	I	Title: Development of Vaccines and Nutraceuticals Against SARS-CoV-2 Infection
		Tian Wang, The University of Texas, USA
18:20 - 18:45	I	Title: HIV/SIV reservoirs and viral rebound
		Binhua Julie Ling, Texas Biomedical Research Institute, USA
18:45 - 19:10	I	Title: Novel Vaccines Against <i>Clostridioides Difficile</i> Infection
		Xingmin Sun, The University of South Florida, USA
19:10 - 19:50	P	Title: Immunology and Microbiology
		Sonia Sharma, La Jolla Institute for Immunology, USA
19:50 - 20:10	Poster	Title: New ST623 Clone of <i>Cryptococcus Neoformans</i> Isolated from a Non-Hodgkin's Lymphoma Patient in the Brazilian Amazon
		Cristina Ferreira, Amazon Foundation of Hematology and Hemotherapy - HEMOAM, Brazil

End of the Virtual Conference

UPCOMING CONFERENCE

2nd International Forum on Immunology and Microbiology

August 12-14, 2024 | MADRID, SPAIN

IMMUNOFORUM2024
